MAGNETIC MEDIA REQUIREMENTS

The FTP Software used in previous years is no longer a valid method of transmitting files. FTP Users should begin following the steps outlined in “FILING VIA WEB”. This applies to all tax years.

1. FILING VIA WEB

The Kentucky Revenue Cabinet (KRC) offers a secure web site as a preferred method of submitting the Reporting of Annual Employee Wage and Tax Information. Beginning in 2003, KRC began offering the Web as a viable alternative for submitting annual employee wage & tax reports. Using the web site is an ideal alternative as a means to submit the wage and tax reporting to KRC by offering smooth & efficient submission of this deliverable. Also, if for some reason a cartridge or disk is rejected by us, the Web has become a popular method for employers to submit corrected reporting.

Coming soon for tax filing season 2003...KRC's Web Site is here! Check at our web site at <http://revenue.ky.gov/electronicsservices.htm> for its availability.

The underlying philosophy behind using the web site is that the data is already being created electronically. It only makes great business sense to send this information securely via the Web rather than putting it on a tape cartridge or diskette, then paying a third party deliverer. In the past, the KRC has had to return media asking for a corrected report from the employer / transmitter.

KRC is very excited about using the web because it not only streamlines the processing of the wage and tax information for us but it offers an easy and secure way to meet the filing requirements for the employer!

HOW THE WEB SITE WORKS

The new web site utilizes Microsoft's SSL technology (Secure Socket Language) to create a secure connection between the client PC and our Web Server. Using 128 bit encryption, files are transferred to our servers and then processed. This service is provided **at no cost** and only requires the client PC to have Internet Explorer, or any other compatible web browser. There are no hardware restrictions and no software installations required.

To use the web site, a PIN is required, which KRC will assign when the employer declares its intention to send annual wage & tax reports via the web. ***The PIN number assigned for use with the FTP Program can also be used to log onto the web site, however the FTP program will no longer be a valid method of transferring files.***

Once the user has logged onto the web site, the employer can select files from any location accessible to that PC, and transfer it to the KRC web server. It is important to note that the file layout for using the web is exactly the same as filing by tape, cartridge, and diskette. Therefore, switching to this new method of transferring files will require no changes in the methods for creating the files.

After the transfer, KRC will run validations against the file to determine that it is a valid file format. Then, KRC will notify the transmitter within 2 hours, via email, stating the success or failure of the validations.

WEB SITE SECURITY

The Federal government mandates that strong security measures are established when handling Federal tax information. Since the incoming wage and tax information via the Web may contain Federal tax information, KRC has designed and controls the entire process with a high level of security. From the client PC to the Web Server, SSL is used to encrypt all data transfer, using 128 bit encryption. This process is entirely safe! After the file is transferred to our servers, it is encrypted again to provide security against internal access to the file. The file never resides on our servers unencrypted.

To log onto the web site, a combination of your Federal Employer Identification Number (FEIN#) and a KRC assigned Personal Identification Number (PIN) must be used in order to establish secure connection with the KRC server. Plus, a series of accountability and audit trails are maintained by the KRC upon connection to further control access. The KRC is confident in the level of security with using the Web.

HOW TO GET STARTED USING THE WEB

Preparing your office and personal computer to use the web site requires no hardware or software installations. The only requirement is having Internet Explorer or some other compatible web browser.

1. **However, please ensure KRC is notified of your intentions to submit the annual report via the Web as described below. Complete the Form # 42A808 - Request Form for Authorization of Submission of Annual Employee Wage & Tax Reporting via THE WEB and send to KRC.**
2. The KRC will assign you a PIN# and clarify FTP procedures and specifications upon declaring your intention to submit annual wage & tax information via the Web. Some information as to system specifications, network and contact information must be provided to the KRC. ***Please Note: It is important to get your system / network administrator involved ASAP so as to ensure that you have the proper capabilities. Please notify & work with your system / network administrator up front to ensure your success.***

AUTHORIZATION TO FILE VIA THE WEB

The employer / transmitter must contact the KRC, using Form # 42A808 – Request Form for Authorization of Submission Via WEB, to declare intentions to submit via the Web and obtain the current WEB specifications. The employer must be prepared to provide the following information:

1. Name, Address and Federal Employer Identification Number (FEIN) of organization or firm requesting to enable Web Site Access.
2. Name, title, telephone number and email address of person to contact regarding the request for setup of Web Site Access.
3. Estimated number of employees to be reported.

Please complete the attached Form 42A808 return to KRC ASAP to get started!

DATA RECORD DESCRIPTIONS

The record format for reporting Kentucky wage and tax data shall be the Code-RS State Record. **ONLY UPPER CASE LETTERS ARE ACCEPTABLE ON MAGNETIC MEDIA FILES**. The Kentucky Revenue Cabinet posting software will not recognize lower case letters in a magnetic media report.

The following is a description of the data records that are used to create magnetic media W-2 Copy A Reports. Use the information below as well as the list of technical requirements and specifications in the other sections of this manual to prepare W-2 Copy A reports via magnetic media. KRC requires the following records:

EMPLOYEE WAGE RECORD

CODE RW and RO

Following each CODE RE record include the CODE W record(s) for that CODE RE record immediately followed by the OPTIONAL RO record(s).

The RO record is required if one or more of the fields must be completed because the field(s) applies to an employee. If just one field applies, the entire record must be completed.

Do not complete a CODE RO record if only blanks and zeros would be entered in positions 3-512.

RW records may be intermixed by RW-RO combinations if some employees have information for an RO record and some do not.

TOTAL RECORD

CODE RT AND RU

The CODE RT record must be generated for each CODE RE record.

The CODE RU record is OPTIONAL, but is REQUIRED if an RO record is prepared. If just one field applies, the entire record must be completed.

Do not complete a CODE RU record if only zeros would be entered in positions 3-512.

The following pages show the record layouts of the records **required** by KRC.
